Pronto! Version 2.7.3 - Released

2021-05-17 - Josh Olson - Product Updates

Product: Pronto! Version 2.7.3

Release Date: 5/17/2021

Download: https://support.communigate.com/en/downloads/pronto

Requirements: CGP version 6.2.11 or later

In this release:

- Minor bug fixes in mail composer
- Pronto! now will relogin when there is active session
- New search implementation powered by ElasticSearch
- ActiveAuth integration now allows selecting default device
- ActiveAuth integration now allows deletion of inactive devices
- ActiveAuth integration now can send test push notification to chosen device
- ActiveAuth integration now can work with legacy devices, which does not support biometrical authentication

- PLATFORMS supported: Linux, FreeBSD, Windows, MacOS with CommuniGate Pro version 6.2.11 or later

Please Note: Please see this article for instructions on loading the Pronto! skin within an existing CGP installation.

If you have any questions regarding installation, please open a support ticket here.

Thank you.
